Helmets for Helicopter Pilots and General Aviation

Helmets for Fire-fighters

Helmets for Special Forces

## MSA - A world leader in head protection

Our mission is : "That men and women may work in safety and that they, their families and their communities may live in good health throughout the world".

Since 1914, MSA has been committed to provide high quality personal protective equipment to workers, serving markets throughout the world.

MSA serves a wide variety of markets with a unique range of high performance helmets :

- Fire and Rescue helmets : with the unique GALLET products (F1SF and F2 X-TREM), MSA protects firefighters in more than 80 countries worldwide.
- Law enforcement and Ballistic helmets : supplying head protection solutions to Police and military troops around the globe
- Helicopter , Civil Aviation, Aerobatics and Jet Pilot helmets
- For Industrial head protection, MSA has been a strong market leader in North America for years, and has manufactured over 80 millions hard hats since the introduction of the first product in 1964

## Professional, reliable & responsive

MSA is one of the leading companies in the development, production and distribution of innovative personal protective equipment and gas detection systems. Alongside the extensive range of top quality products, MSA also provides a high level of customised service.

MSA's comprehensive and versatile range of services ensures that your equipment and systems will always be reliable, economical and ready for use. MSA is always at your service to provide you with the support you need, when you need it.

- Project Planning & Development
- Installation & Commissioning
- System Modification
- Maintenance
- Repair & Service
- Training

## MSA, high performance and reliability to meet customer's requirements

Our test laboratories are equipped in order to develop, repair and subject our products to the most rigorous and punishing tests. MSA benefits of specialized expertise centers which use high sophisticated technology and know-how to perform, maintenance and repairs all the products:

- MSA in France for the ballistic and intervention helmets,
- MSA in Sweden for the electronic communication systems,
- MSA in the USA for the body armor,
- MSA in Germany for the respiratory protection,
- MSA in USA for the gas detection.

# LH 350 Helicopter Helmet

*The New Generation of Helmets for Pilots and Navigation Crew*

# LH 350 Helmet

## Ergonomics designed for helicopter applications

- **Excellent weight/protection ratio**
  - State-of-the-art composite structure ensures highest level of performance
- **Optimal adjustment ensures comfort and stability**
  - Three shell sizes supplied with customization kits
- **Head mobility**
  - Specially designed for optimal performance under flight conditions
- **Better hearing protection**
  - Increased cavity volume
- **Better mass centralization and maximum optimization at the front**
  - Integrated crest
- **Simplified maintenance**
  - Visors can be removed independently without the use of tools. Easily interchangeable according to the type of mission
  - Spare parts kits readily available
  - Optimization of part numbers for all three helmet sizes
  - Electronic centralization

## A perfect fit thanks to the adjustable comfort liner

Adjustable comfort liner (4 areas)

Adjustable neck pad

Interfaces NVG Anvis or CN2HA

Inner visor adjustment

Outer visor adjustment in a range of tints

Mechanical support for power supply casing

Centralization of power supply and audio functions

Because of the printing way, the reproduced colours can slightly differ from the real colours. M: metallic - Mt: matt - B: bright - F: fluo
