Helicopter Helmets LH 050/150/250

[A Helmet Adapted to the Needs of Pilots and Navigation Crew]

Helicopter Helmets LH 050/150/250

[Comfort, Protection, Lightness and Mobility]

A perfect fit thanks to the pads adjustable system

LH 050

- Equipped with one screen (see types available)

LH 150

- Equipped with one screen (see types available)

LH 250

- Equipped with two screens (see types available)

Screen types available :

- Solar screen (green, grey colour)
- Low visibility-antoshock screen (yellow colour)
- Anti-shock clear screen

Specifications

- Sizes from 52 to 63.
- Weight under 1 kg for all models of helmets.
- Protection against impacts and perforation is ensured by a shell in carbon fibers and aramid, and by an expanded polystyrene inner padding with high density.
- Retention system is developed for optimal security and carriage.
- High degree of passive noise protection.
- Solar screens or for low visibility, anti-schock and treated anti-scratch.
- Excellent field of vision.
- Exceptional head range of mobility.
- Easy maintenance and custom fit thanks to a customized kit of pads which can be entirely disassembled.
- Center of gravity assured natural stability.

The helmets LH 050/LH150 and LH250 can receive specific equipments as options

Protection cover/ NVG (Night Vision Goggles) support

Screen available : yellow, green, grey and clear

Various communication systems available

2 comfort ear pads with micro cells

The patented retention system developed for optimal security and fit

Patented system of shell flexing which makes the donning and taking off of the helmet easier
